SUMMARY

I'm a computer science fanatic, always diving into new tech with a hunger to create, innovate, and make an impact. Whether it's app development, blockchain, or machine learning, I'm all about harnessing the power of technology to shape the future. From time to time I participate in coding competitions, leveling up my skills and pushing the limits of problem-solving.Outside of academics, I focus on mini-projects to further develop my skills. Looking ahead, I'm excited to contribute to innovative technologies and help shape the future of the industry.

EXPERIENCE

Sales Manager   03/2022 - 02/2023
HIRAK CONNECT   Punjab, Pakistan

I worked as a sales manager at Hirak connect boosting the productivity of the small startup
- Highlight your accomplishments, using numbers if possible.

EDUCATION

Bachelor of Science - BS, Computer Science   09/2023 - 07/2027
Information Technology University

CGPA | **3.81** / 4.0

Pre engineering   04/2021 - 04/2023
Punjab Group Of Colleges

Marks | **975** / 1100

PROJECTS

Titan Factory

TitanFactory Web Application: Industrial Management Reinvented with Technology
Technologies Used
Backend: Node.js , Express, Python Frontend: React
Database: MySQL
🔗 https://github.com/abdullahiftikharcode/Titan-Factory

Campus Pulse App

Campus Pulse is a secure club management app featuring user authentication, unique club codes, admin/member roles (announcements, events, member control), notifications, profile editing, and a Gemini-powered chatbot, with automated ownership transfer/deletion logic.
🔗 https://github.com/abdullahiftikharcode/Campus-Pulse

Bookstore Management System

Developed a Bookstore Management System in Python with a custom-built face verification system for secure authorization. Integrated a chatbot using the Hugging Face API.
🔗 URL

Chess   12/2023 - 12/2023

● Developed a fully functional chess game in C++ using pointers..
